- Docker

Work Experience

Senior Manager and Accountant : Mansoura Padel Point (2023/8/15 : 2024/9/12)   **+201025309970**

Projects

Free Blog Platform : a user-friendly application built with React and Vite. Easily create, manage, and share your blog posts.

Key features: authentication, protected routes, CRUD operations, and a sleek Material-UI interface. Powered by Firebase, Formik, Yup, and Sass.

Source Code

E-commerce Platform:

a user-friendly web app built with React.

Key Features: Seamless product browsing and shopping cart management, responsive design for optimal mobile and desktop experiences, efficient product data and user information handling with a JSON server, dynamic product displays and real-time cart updates.

Technologies Used: React, JavaScript, JSON Server, HTML, CSS, React Router, Axios.

Source Code

CRUD React App:

a user-friendly application built with React.

Key Features: Create, read, update, and delete items in a dynamic list, seamless interaction with a mock backend using JSON Server, real-time updates and error handling for a smooth user experience.

Technologies Used: React, JavaScript, JSON Server, HTML, CSS

Source Code

Guess Game Project: an interactive number-guessing game built with HTML, CSS, and JavaScript.

Key Features: Intuitive user interface with real-time feedback and scoring, dynamic game state changes based on user input, including difficulty levels, engaging gameplay with a focus on user interaction.

Technologies Used: HTML, CSS, JavaScript.

Source Code
